## News from the Hall

At first, on behalf of the committee, I should like to thank Bronllys Community Council, Community Foundation Wales, Powys County Council and the members of the Coffee Morning for their contributions to the work in progress. We now have a new and improved community hall for years to come.

The main work comprised of installing new windows, new electric heating system and an easy access exit door as well as the re-fit of the outdoor areas to allow access. The new paving and gravel area to the front will enable people to come and sit and enjoy the hall.

In addition to the main work we have also had the main hall, stage, ante room and toilets redecorated. And we have replaced the blinds, the curtain and rail for the stage.

We were booked as a Polling station and this was a good way for people to see what has been done during this strange year. We have also started coffee mornings with limited numbers. Please contact me if you'd like to come along

## Centenary celebrations

To remind you, in 2024 the hall will celebrate its centenary and it is hoped that throughout that year we can hold events to celebrate this important milestone.

Many people in the village remember the hall in its heyday, and we would love to know what events you remember at the hall. Perhaps you could even lend us photographs and memorabilia?
